

Cloud Computing

About Course

Cloud allows network-based access to communication tools like emails and calendars. Wats app is also a cloud-based infrastructure as it comes in communication it is also one of the examples of cloud computing. All the messages and information are stored in service providers hardware.

CLOUD COMPUTING

CURRICULUM

Environment Setup

Course Overview Lesson

AWS Overview Lesson

Designing Highly Available, Cost-efficient, Faulttolerant, and Scalable Systems Lesson

Identity Access Management (IAM) Lesson

Amazon Virtual Private Cloud (VPC) Lesson

Elastic Compute Cloud (EC2) Lesson

Amazon Simple Storage Service (S3) 13

Amazon Route 53 Lesson

Databases Lesson

Application Services Lesson

Security Practices for Optimum Cloud Deployment Lesson

Disaster Recovery Lesson

Troubleshooting Lesson

AWS Solutions Architect Exam
